WHICH 300 CHILDREN CLAIM AS

EIR ONLY HOME.

HOW THE BUSY LITTLE INMATES OF THE GERMAN PROTESTANT ORPHANS' HOME SPEND THEIR S TIME AND GROW TO BE USEFUL AND INTELLIGENT MEN AND WOMEN.

A GROUP OF SMALL GARDENERS.

wooden floors almost sparkle with their cleanliness; easy stairways that are not any too well light it; a granitold-floored lose ment; and rooms, big and small, for keeping house for the 229 children, of all ages from 2 years to 18, who find a home there The house is lighted by gas made on the premises and is beated by steam.

No children under 2 years are accepted; that is about the only restriction as to admittance. While German is the universal language of the home, its bospitality is not confined to Germans. Within its walls are with reserved to their strength and size, for the strength and size, for th nully a rule of the institution that only orphone should be cared for; but this rule has ong since been abregated.

There are two classes of inmates-the rection with a sweep that took in a garden, charity class and those for whose care a stipulated sum is paid. The former are bound to the home until thehy reach the nga of 18; the latter are free to leave at any time their parents or guardians may

Some of the Work That the Girls Are Called Upon to Do.

In the basement are the kitchen, the dining rooms and the phyroems for all the innates. The klicken is a big place, where it all hours of the day neatly dressed litplies of various ages, are peeling potators, cutting broad, linking and cooking and washing dishes-all under the direction of a competent rook. Boys and girls are dehouse, which, he said, was where the teach. I tailed for duty as waiters, and for other similar duties, and also as caretakers in the playrooms. At one end of the bubbling there is a the buthroom for boys; at the other end is a similar convenience for girls, Every child in the home to required to was more in evidence than ever, "But the bathe on Saturday on which day, also, all other one-maybe he shall be in," he added, the floors and other interior and exterior Walsh, as he is known familiarly to his littled to resemble a private yacht, with woodwork are required to be thoroughly tionetic lateret.

> On the first floor are the four schoolrooms, including the kindergarten, half a to the diless to the difference are transfer in the difference and arise down reception-rooms, a library, the offices had a faroural aristocrary. of the home, and a nicely equipped chapel, in one corner of which is a pipe organ. On
